

Sumit Kumar

✉ stva3030@gmail.com ☎ [+919671658070](tel:+919671658070) 📍 Hansi, Haryana, India 🌐 <https://portfolio-s-liard.vercel.app/>

Summary Full-stack developer skilled in Node.js, Express.js, React, and Next.js, with experience in REST APIs, real-time applications ([Socket.IO](#)), and JWT authentication. Also familiar with SQL/Supabase and AI-powered data solutions using LLM APIs.

Profiles	LinkedIn sumit-kumar-dev3	Portfolio Projects	Github SumitKumar3030
-----------------	---	--	---

Experience	Labmentix – Web Development Intern March 2026 – June 2026 (Present)
	- Developing modern web applications using Next.js, React, and Node.js - Building REST APIs and authentication systems for secure user management - Working with database integration and scalable backend architecture
	Wipro Talent Next Training - Java2EE June 2023 - August 2023
	- Completed training on Java, JDBC, Servlets, and JSP with real-world applications. - Built mini-projects and passed certification tests conducted by Wipro.

Education	Chandigarh University Computer Science	Bachelor of Engineering August 2020 - June 2024
	Shree Krishna Pranami Public School Non-Medical	12th June 2020
	Shree Krishna Pranami Public School 10th	Matriculation 2017 - 2018

Projects	<u>Mentor–Student Real-Time Collaboration Platform (Live)</u>
	- Developed a low-latency real-time platform with collaborative code editor, chat, and WebRTC-based video calling using Socket.IO - Utilized Supabase for database and session management. - Implemented peer-to-peer communication and real-time data sync for collaborative sessions.
	<u>AI-Powered Data Analyst Dashboard (Live)</u>
	- Built AI-powered dashboard to query CSV data using natural language. - Integrated Gemini API for auto chart selection and insights. - Developed backend processing and dynamic charts (Node.js, Recharts).
	MeterFlow – API Usage Metering & Billing Platform
	- Built a full-stack API gateway with JWT authentication and API key management. - Implemented usage tracking, billing analytics, and real-time dashboard monitoring using MERN stack.

Skills	Programming Languages : Python, JavaScript (ES6+), SQL	Frontend : React.js, Next.js, HTML5, Tailwind CSS, React Hook Form
	Backend: Node.js, Express.js, RESTful APIs, WebRTC, MVC Architecture, JWT Authentication, Supabase, Socket.IO	OS and Tools : Windows and Linux, Git, GitHub, Vercel, Postman
	ML : TensorFlow, Keras	Database & ORM: MongoDB, MySQL, Prisma ORM

Certifications	IBM Full stack Developer(coursera), Data Analytics(Google), Machine Learning(Coursera)
-----------------------	---

Languages	English	Hindi
